Creators of Mesmerising Surfaces

For over four decades, Karishma has grown from a single boutique into an internationally recognised design house. Established in 1986, the brand’s journey is rooted in craftsmanship, thoughtful creativity, and a measured approach to innovation. Its evolution from designer tiles to bespoke stone artistry reflects a deep respect for material, process and design values.

Our in-house design plant, supported by a well-established network, enables us to present a carefully curated range of designer tiles, highlighters, mosaics, stone murals, thikri art, inlays, customised mandirs and signature surfaces. Each creation is mindfully crafted to balance heritage with contemporary aesthetics, meeting the refined expectations of modern architectural spaces.

Today, Karishma stands not just as a brand but as an inspiration, where every surface becomes a statement and every space tells its own story.

STONE WALL

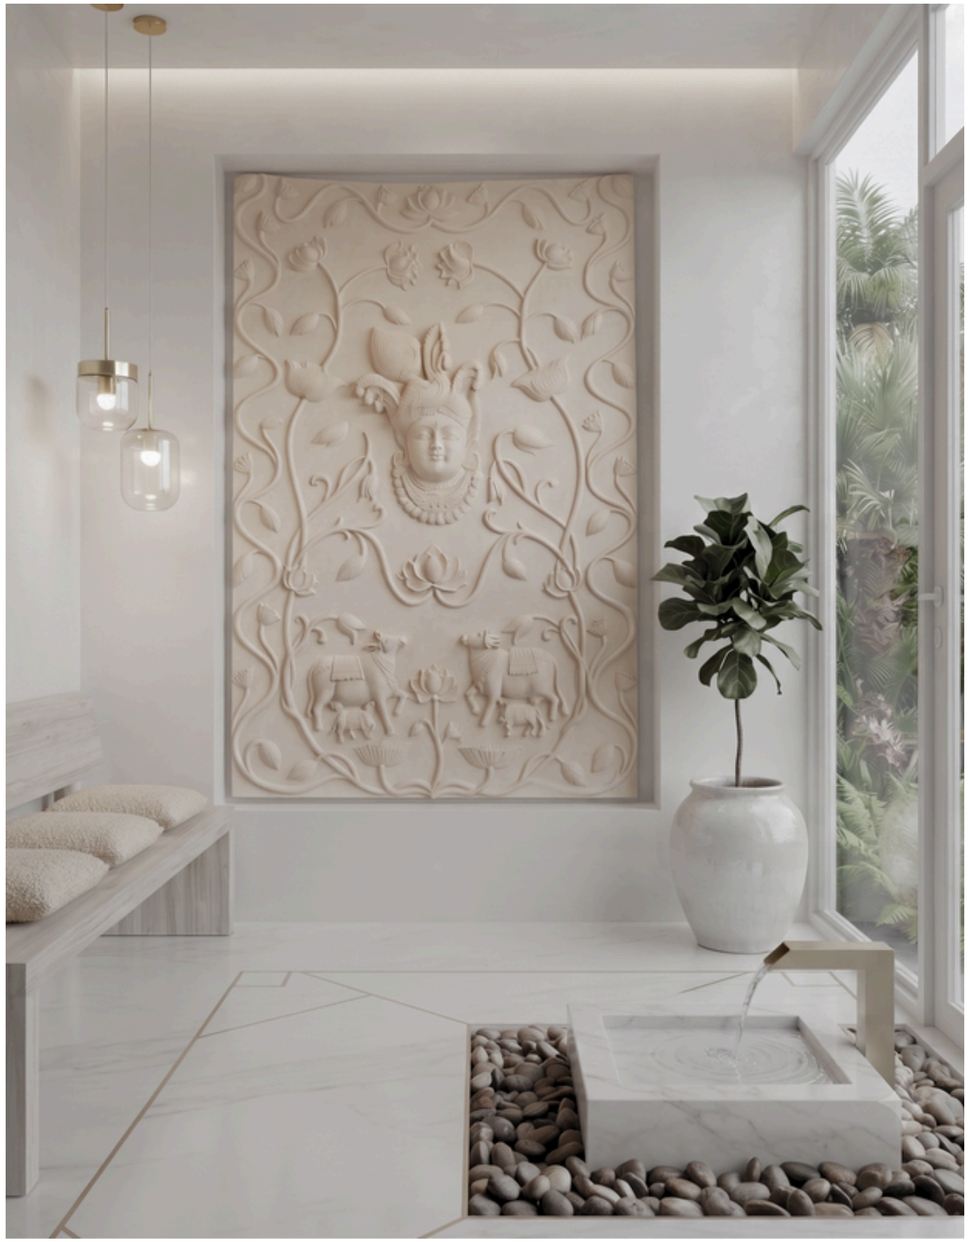

Rooted in the raw beauty of natural stone, our stone walls bring depth, texture and character to every space. From striking natural patterns to intricate artistic expressions, each surface tells a story shaped by nature and refined by design.

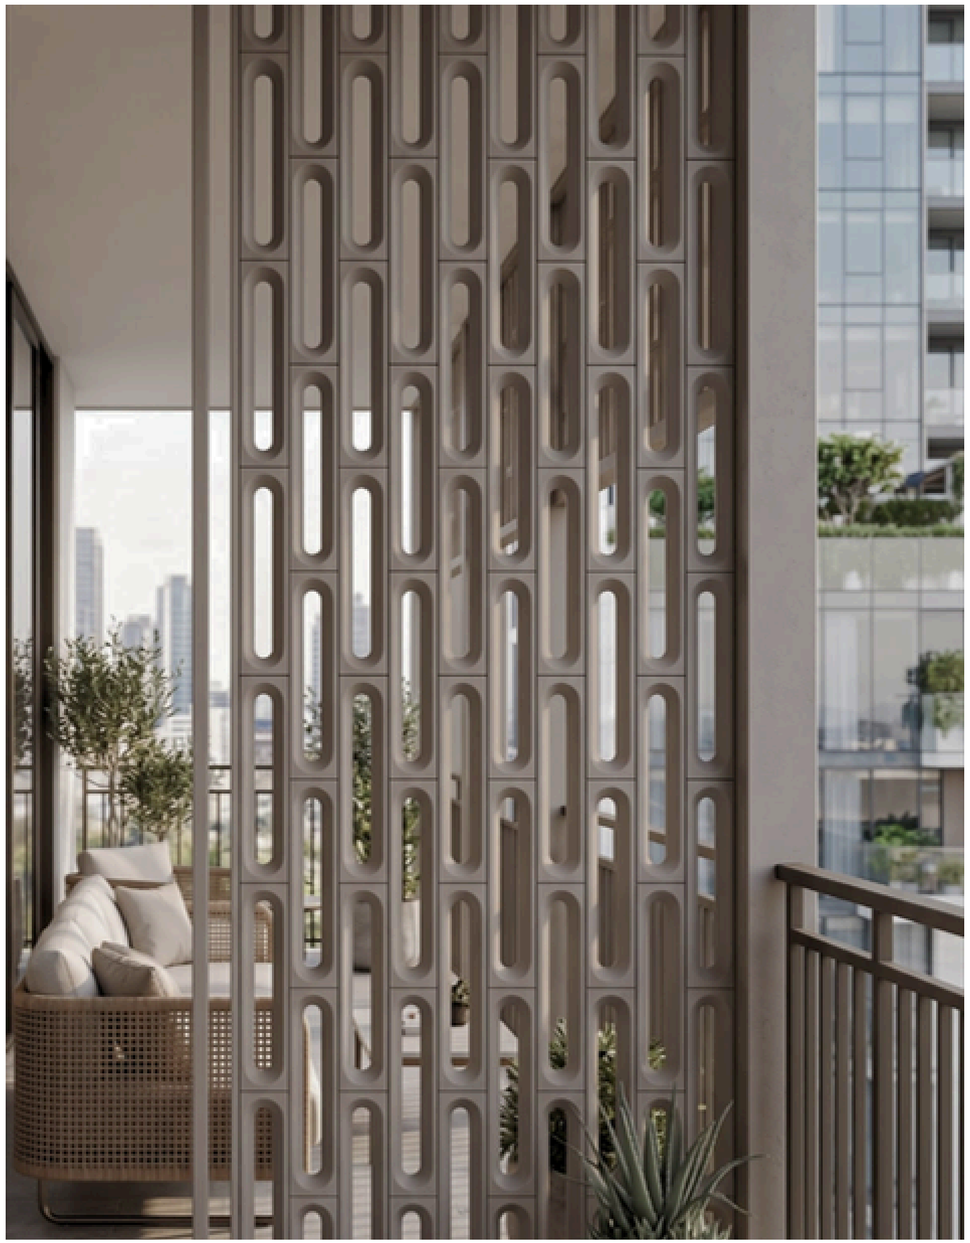

TAILORED STONE ART COLLECTION

Every piece, tailored to your vision. Every detail, shaped by the art of stone.
Our custom stone collection brings your imagination to life through bespoke designs, intricate detailing, and the timeless beauty of natural stone.
